STUDENT NUMBERS

The Registry begs leave to publish the following information on student numbers:

Notes:

(a) The headings 'Undergraduate/Postgraduate', 'Arts/Science', 'Full-time/Part-time', in these tables have the sense used for statistics by the Higher Education Statistics Agency (HESA) unless otherwise stated.

(b) Students are classified as 'Full-time' if they are: 1) undertaking a full-time course and 2) have not completed the minimum requirements of their course (i.e., they are neither writing up nor under examination) and 3) are not intermitting. Students are classified as 'Part-time' if they are undertaking a part-time course and have not completed the minimum requirements of their course and are not intermitting. Students who have completed the minimum requirements of their course and are not intermitting are classified as either 'Full-time writing up/under exam' or 'Part-time writing up/under exam'. Up to and including 2005–06, students undertaking a part-time course and students writing up/under exam (either full-time or part-time) were classified together as 'Not Full-time'.

(c) Complete lists of courses designated 'undergraduate' or 'postgraduate' are shown in Table 9a (Full-time courses) and Table 9b (Part-time courses).

(d) The division of Faculties and Departments between Arts and Science is shown in the Appendix.

(e) Time series should be interpreted taking account of recent changes in the definition of 'Full-time' and 'Not full-time' and in the allocation of FTE (full-time equivalent) load for postgraduate students for different periods of their career, as follows:

Up to and including 2004–05, postgraduate students undertaking a full-time course were recorded as 'Full-time' for the required terms of their course and after those terms were completed as 'Not full-time'. For example, a three-year PhD was recorded as 'Full-time' in the first nine terms (and allocated an FTE load of 100% for each year) and as 'Not full-time' in and after the tenth term (and allocated an FTE load of 50% for each complete subsequent year).

In 2005–06 and 2006–07 postgraduate students undertaking a full-time course were recorded as 'Full-time' for the required terms of their course **plus one extra term**, and thereafter as 'Not full-time' (Full-time writing up/under exam in 2006–07). Thus the typical three-year PhD student is recorded as 'Full-time' in the first ten terms and from the eleventh term onwards as 'Not full-time' in 2005–06 and 'Full-time writing up/under exam' in 2006–07. The allocation of FTE load is 100% for the first ten terms and zero in and after the eleventh term. The annual load is therefore 100% for each of the first three years, 33% for the fourth year (in respect of the tenth term) and zero for all subsequent years.

The head count of student numbers in and after 2005–06 includes the Master of Studies courses; those courses are included in FTE for all years.

The effect of these changes in definitions is that, in comparison to 2004–05, the number of postgraduate students defined as 'Full-time' has increased, but the associated FTE load has decreased.

The addition of the part-time Master of Studies students has increased the head count of 'Part-time' students (but counted as 'Not full-time' students in 2005–06 only).

(f) Further information on the method of calculating full-time equivalent student load may be obtained from The Planning and Resource Allocation Office, The Old Schools, University of Cambridge, Trinity Lane, Cambridge CB2 1TT (email: Student.Statistics@admin.cam.ac.uk).

(g) Unless otherwise stated, figures in the tables for years up to and including 1993–94 reflect the position at 31 December of the academical year concerned. In and after 1994–95 the position is at 1 December.

From 1994–95 full-time students are as defined by HEFCE. Previously the UGC/UFC definition was used. See the notes for further definitions. 'Home' includes students from the EU and other overseas countries eligible to pay the home rate of fees plus Channel Isles and Isle of Man students paying the Island rate of fees. Incoming reciprocal exchange students, who are exempt from fees, have been included in the 'home' category. The data for 2005–06 are restated owing to the incorrect inclusion of Overseas students in receipt of an Overseas Research Studentship in the 'Home' category in the May 2007 publication.

From 1982–83 the courses in Development Studies were discontinued. Previously about 25 students on the course, who paid no University Composition Fees, were classified as Overseas 'Arts' Students and included in the postgraduate numbers.

From 1994–95 Full-time students were as defined by the HEFCE. Previously the UGC/UFC definition had been used. See the notes for further definitions.

From 1980–90 'Other' refers to the pre-1980 rate of overseas fees. Thereafter it refers to any fee not otherwise specified.

Incoming and outgoing Reciprocal Exchange Students and other incoming students are excluded.

¹ This column represents the overall assumed number of registrations or load for the academic year 2006–07 taking into account wastage and registrations after 1 December.

² UG - Undergraduates, PGT - Postgraduates Taught, PGR - Postgraduates Research

³ 3rd Year Clinical Medical Students who are in residence for only one term have to be returned as part-time in accordance with HEFCE rules, whereas they were counted as full-time in all other statistics.

⁴ Courses are classified as 'long' if students are normally required to attend for 45 weeks or more within the year.

⁵ Students are allocated to Faculties and Departments according to an agreed formula. Faculties and Departments are allocated to Cost Centres in accordance with instructions provided by HEFCE. Cost Centres are then allocated to the various Price Groups in accordance with HEFCE rules.

Note: Up to and including 2005–06, the Tripos course in Chemical Engineering was taken by undergraduates who had passed a part of another Tripos at the end of their first or second year. However, Affiliated Students were an exception to this rule. The table therefore shows a few such students reading this course.

This table only includes Undergraduates and Affiliated Students according to the Cambridge definition. Clinical Medics and Clinical Veterinary Medics have been excluded.

Commonwealth Countries classification is as at 1 December 2006.

This table excludes UK nationality students, including Channel Islands and Isle of Man.

A corrected Table 19 for 2005–06 appears at the end of this booklet.

NOTES TO TABLES 20–26

1. These statistics *exclude*:

- (a) Candidates who took examinations as candidates ‘not for Honours’ (with the exception of Part III of the Mathematical Tripos).
- (b) Candidates who have received allowances (Deemed to have Deserved Honours (DDH) or granted an allowance towards the Ordinary degree) by the Applications Committee of the Council. (Allowances may be granted to candidates who have been ill or who have extenuating circumstances and have thus been prevented from taking an examination or whose performance has been adversely affected as a consequence.)
- (c) Candidates who have spent the year abroad studying at the Massachusetts Institute of Technology or studying in Paris as part of the Double Maîtrise. These results are shown separately with Table 26 so that they shall not affect the percentages in the main tables.
- (d) Unclassified preliminary examinations (in History, Oriental Studies, Classics and Education Studies) and the First Examination for the Degree of Bachelor of Theology for Ministry. These results are shown separately with Table 26 so that they shall not affect percentages in the main tables.
- (e) Candidates for: (i) Diploma and Certificate examinations; (ii) Oral examinations in Modern Languages; and (iii) Mus. B. examination.

2. The heading ‘Other results’ includes (but does not differentiate between):

- (a) Candidates who failed their examinations.
- (b) Honours candidates who have received an allowance from the Examiners (but *not* the Applications Committee of the Council - see 1 (b) above).
- (c) Candidates about whom an application has been submitted to the Applications Committee but who were still awaiting a decision at the time these tables were produced.
- (d) Candidates who have been granted a deferral.

3. In Part III of the Mathematics Tripos, a pass with distinction or merit has been counted as a Class I and a pass as Class II, division (1). This applies whether or not the candidate is a candidate for Honours. In Part II of the Manufacturing Engineering Tripos and Part IIB of the Engineering Tripos, a pass with distinction has been counted as Class I, a pass with merit has been counted as Class II, division (1) and a pass as Class II, division (2).

4. The class obtained in each language by candidates entered for two languages for Part IA of the Modern and Medieval Languages Tripos has been counted as half a class. This explains why, in some years, the number of cases under each class division for this tripos and in the totals are not whole units.

5. Third-year pre clinical medical and veterinary students are included under the Tripos examination for which they were entered.

Notes:

(a) * The introduction of Part IA of the Natural Sciences Tripos in 1966 and the undividing of Part IA of the Medical and Veterinary Sciences Tripos in 2001 accounts for the large increases in the undivided Second Class. Conversely, the division of the Second Class of the Mathematical Tripos in 1995 led to a substantial decrease.

(b) † Candidates who were taking examinations as candidates 'not for Honours' and candidates receiving allowances from the Applications Committee of the Council were excluded from the 1972 statistics (and thereafter) although they had been included in previous years. Candidates for the LL.B. Examination were included in 1972 for the first time, but the LL.M. Examination was excluded from 1999. Candidates for the B.Ed. Degree were excluded from the statistics for the years 1972–79 inclusive, but, with the introduction of the Education Tripos, have been included from 1980.

APPENDIX

Definition of Science-based and Arts-based cost centres as at 1 December 2006

Numbers and descriptions of Cost Centres are as per HEFCE definition

1. *Science-based Cost Centres*

Cambridge Faculties, Departments, etc.

(01) Clinical Medicine*	School of Clinical Medicine Pathology
(03) Veterinary Science*	Veterinary Medicine
(04) Anatomy & Physiology	Physiology, Development & Neuroscience
(08) Pharmacy & Pharmacology	Pharmacology
(10) Biosciences	Biochemistry Biological Anthropology Experimental Psychology Genetics Institute of Biotechnology Plant Sciences Wellcome Trust/Cancer Research UK Gurdon Institute Zoology
(11) Chemistry	Chemistry
(12) Physics	Astronomy Physics
(14) Earth, Marine & Environmental Sciences	Earth Sciences Scott Polar Research Institute
(16) General Engineering	Engineering
(17) Chemical Engineering	Chemical Engineering
(18) Mineral, Metallurgy & Materials Engineering	Materials Science and Metallurgy
(20) Electrical, Electronic & Computer Engineering	Faculty of Computer Science and Technology (part)
(23) Architecture, Built Environment & Planning	Architecture Architecture and History of Art (part) Land Economy
(24) Mathematics	Applied Mathematics & Theoretical Physics Pure Mathematics & Mathematical Statistics
(25) Information Technology & Systems Sciences	Faculty of Computer Science and Technology (part)
(37) Archaeology	Archaeology Archaeology and Anthropology (part)

* Note that pre-clinical Medical and Veterinary students are not shown here but under their various Departments in other Groups.

2. *Arts-based Cost Centres*

(27) Business & Management Studies	Judge Business School
(28) Geography	Geography

(29) Social Studies	African Studies Applied Economics Archaeology and Anthropology (part) Criminology Development Studies Committee Economics and Politics Latin-American Studies Law Social and Political Sciences Social Anthropology South Asian Studies

(33) Design & Creative Arts	Music
(34) Education	School of Education
(35) Modern Languages	French German Italian Oriental Studies (part) Slavonic Studies Spanish and Portuguese

3. *Non-University Institutions*

For the purpose of calculating student load, Graduate Students working in the institutions listed below are allocated to the various Cost Centres (and subsequently to the Arts/Science sub-totals) on the following basis:

<i>Non-University Institution</i>	<i>Cost Centre</i>
Animal Health Trust Newmarket	Veterinary Science
Babraham Institute, BBSRC	Biosciences
Biostatistics Unit, MRC	Clinical Medicine
British Antarctic Survey, NERC	Earth Marine & Environmental Sciences
Broom's Barn Experimental Station	Biosciences
Cancer Cells, MRC Unit	Clinical Medicine
Cognition and Brain Science, MRC Unit	Psychology and Behavioural Sciences
Crystallographic Data Centre	Chemistry
Dunn Human Nutrition, MRC Unit	Clinical Medicine
European Bioinformatics Institute	Biosciences
Human Nutrition Research, MRC Collaborative Centre	Clinical Medicine
Molecular Biology, MRC Laboratory	Clinical Medicine
Monk's Wood Experimental Station	Biosciences
Protein Engineering, MRC Centre	Biosciences
Wellcome Trust Sanger Institute	Clinical Medicine
